Career Objective

Responsible and motivated B. Tech student ready to apply educational knowledge in the workplace. Offers excellent technical abilities, effective time management, and problem-solving skills.

Education

2022-current: B. Tech in Computer Science and Engineering, JNTUH College of Engineering Hyderabad **|** CGPA: 7.625/10 (till 6th Semester) **|** Expected: July 2026

2020-2022: Vinjee Junior College, Kukatpally MPC – 87.3%

2020: Narayana Concept High school, Addagutta SSC CGPA – 10.0

Skills & Certifications

- Languages: C, Python
- Web Development: HTML, CSS
- Database Management: SQL
- Certifications: Python, Volunteer of JNTUH Global Alumni Meet 2023 program, Organizer of Clash of Minds Event (QUEST 2025).
- Languages Known: English, Telugu, Hindi.

Extracurricular Activities

- I have been a tech volunteer for **JNTUH Global Alumni Meet 2023** program and volunteered in the tech fest organization team.
- I have organized an event "**Clash of Minds: The Debate Battle competition**" as part of the fest.

Projects

AI-Based Expense Tracker (MINI PROJECT)

- Full-stack web app for group expense splitting. (HTML, CSS, JavaScript)
- Tech Stack: Python, Node.js, PostgreSQL, Flask, Dialogflow, Tesseract OCR.
- Features: OCR & voice input, Dialogflow based chatbot for conversational input, ML-based categorization, data visualization.

Smart Tour Genie – Tourism Recommender System

- Personalized travel recommendations based on preferences (weather, season, budget).
- Built with Python (Flask), OWL, RDFLib; frontend in HTML, CSS, JavaScript.
- Integrated REST API for real-time destination suggestions.

ATM Management System

Developed a secure web-based ATM simulation using Flask with features like user login, balance inquiry, deposit, withdrawal, and mini statement; integrated glassmorphic UI for a modern banking experience.

Graph Visualizer Web Application

- Designed for learning graph algorithms (BFS, DFS).
- Developed frontend UI for graph types & traversal using HTML, CSS, JavaScript.
- Contributed to both UI and algorithm logic.
