Bachelor of Technology in Computer Science & Engineering with a CGPA: 8.01/10 and a strong foundation in Python, SQL, and web development. Currently working as a Project Trainee at APTOnline, gaining training in C#, .NET, and ASP.NET, while pursuing M.Tech in Computer Science and Engineering at BVRIT Hyderabad College of Engineering for Women. Hands-on experience in developing applications, including a face recognition-based attendance system, expense tracker, and tourism recommender system. Eager to apply technical skills to build efficient and reliable software solutions.

Education

2026-Present: M.Tech in Computer Science and Engineering, BVRIT Hyderabad College of Engineering for women.

2022-2026: B. Tech in Computer Science and Engineering, JNTUH University College of Engineering, Science & Technology Hyderabad **|** CGPA: 8.01/10.

2020-2022: Intermediate, MPC Group, Vinjee Junior College, Kukatpally **|** Percentage – 87.3%

2019-2020: SSC Narayana Concept High school, Addagutta **|** CGPA – 10.0

Work Experience:

APTOnline

Project Trainee | September 2026 – Present

- Currently undergoing training in C#, .NET, and ASP.NET.
- Learning the fundamentals of application development using Microsoft technologies.
- Strengthening programming and object-oriented programming concepts through practical exercises.

Projects

Cloud-Based Attendance Management System (MAJOR PROJECT)

Developed a cloud-based attendance system using face recognition, reducing manual effort by 80%.
• Tech Stack: HTML, CSS, JavaScript, Node.js, Firebase Firestore, Cloudinary, Python (face_recognition), Dialogflow.
• Features: Role-based modules (Admin, Lecturer, Student), image-based attendance marking, real-time analytics dashboards using Chart.js.
• Integrated Dialogflow chatbot with webhook (ngrok) for attendance queries and fallback AI model for general responses.

AI-Based Expense Tracker (MINI PROJECT)

- Full-stack web app for group expense splitting. (HTML, CSS, JavaScript)
- Tech Stack: Python, Node.js, PostgreSQL, Flask, Dialogflow, Tesseract OCR.
- Features: OCR & voice input, Dialogflow based chatbot for conversational input, ML-based categorization, data visualization.

Smart Tour Genie – Tourism Recommender System

- Personalized travel recommendations based on preferences (weather, season, budget).
- Built with Python (Flask), OWL, RDFLib; frontend in HTML, CSS, JavaScript.
- Integrated REST API for real-time destination suggestions.

Graph Visualizer Web Application

- Designed for learning graph algorithms (BFS, DFS).
- Developed frontend UI for graph types & traversal using HTML, CSS, JavaScript.
- Contributed to both UI and algorithm logic.

Skills & Certifications

- Languages: C, Python, Java(Basics), SQL, C#(Basics)
- Frameworks and Technologies: .NET, ASP.NET
- Web Development: HTML, CSS, JavaScript(Basics)
- Backend Development: Flask, Node.js, REST APIs
- Databases: PostgreSQL, Firebase Firestore, SQL
- Devops, Cloud & Tools: Git, GitHub, Dialogflow, Cloudinary, Tesseract OCR, CI/ CD and Agile
- Core CS: DSA, OOPS, DBMS, Computer Networks, SDLC, SE, OS
- Certifications: Python, Volunteer of JNTUH Global Alumni Meet 2023 program, Organizer of Clash of Minds Event (QUEST 2025).
- Languages Known: English, Telugu, Hindi.

Extracurricular Activities

- Tech Volunteer – JNTUH Global Alumni Meet 2023
- Organizer – "Clash of Minds" Debate Competition (QUEST 2025)
